EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In the Specification, the first line of page 1 is amended as follows:

This is a continuation of serial number 09/195,579 filed 11/18/98, now abandoned, the disclosure of which is incorporated by reference.

Allowable Subject Matter

Claims 1-16 and 21-22 are allowed.

The following is a statement of reasons for allowance:

The claims are allowable for providing that the wetability of the claimed absorbent products are equivalent to absorbent products of the same composition but without the ketene dimer sizing agent. Allowable subject matter was indicated previously.

Response to Arguments

Applicant's arguments, filed April 20, 2006, have been fully considered.

The amendments to the claims overcome the rejections under 35 U.S.C. 102(b) over Ampulski et al (US 5,246,545), under 35 U.S.C. 102(b) over Trokhan et al (US 5,840,403), and under 35 U.S.C. 102(e) over Cabell et al (US 5,908,707), all set forth previously. As indicated previously, is recognized the prior art teaches does not teach the combination of a surface active agent and a ketene dimer sizing agent as claimed, wherein the surface active agent is different from any surface active agent that may be part of the formulation for making the ketene dimer sizing agent.
